United Kingdom	Greenwich	Robin Davies	G7VKQ	SDR- or Kiwi-SDR and own antenna.	Receiver was an Airspy HF+ Discovery, and antenna a 60cm passive loop (a YouLoop). Antenna was inside my house in an upstairs room. Loop was pointing 20 degrees NE. IQ file recorded for whole transmission, and then processed with mild filtering later	RST 559. Nice easy armchair copy.	This is my first reception of an SAQ transmission. The SAQ livestream on YouTube was very good, and helped put real context around the whole event. Wonderful! My RX is on the boundaries of another world heritage site...hence the use of an internal antenna. Many thanks for maintaining this wonderful, historic facility for the world. A recording of my reception of the transmission is available at https://youtu.be/3_LH0ocZ6g8 and a full IQ file for the tune-up and transmission was captured. Thanks for the fine transmission and the YouTube streaming.
United Kingdom	Hawarden	Clive Carver	GW4EYO	Radio receiver and own antenna	PA0RDT antenna with a RF-Space SDR-IQ Receiver using SpectraVue software.	QSA4 With Good Copy	http://ancient-mariner.co.uk/public/2020.10.24-SAQ_Tuning_Up_at_1444UTC.bmp

United States (USA)	25 MILES WEST OF LIN	RICHARD M. LORENZEN	SA6RAJ WA0AKG	Radio receiver and own antenna	ANTENNA AR 1 METER DIAMETER LOOP ANTENNA OCH RECEIVER OF ARNE SIEKO KIT FRAN SAQ BESOK CENTRUM	Unheard	
United States (USA)	Charlestown, NH	John Collins	KN1H	SDR- or Kiwi-SDR and own antenna.	RX SDR-IQ , ANT 400' wire tuned to 17.2 Khz	RST 339, very noisy and QSB, fair copy on tune up and message.	Well done, a long noisy daylight path for 17.2 Khz!
United States (USA)	Cohoe	Whitham D. Reeve	Whitham D. Reeve	Radio receiver and own antenna	SDRPlay RSPdx with SDRuno software and square loop antenna	Unheard	The transmissions took place too late in the UTC day for good reception at Cohoe Radio Observatory. Even the Norwegian VLF station JXN was very weak at 1500 UTC. I have had much better results when the transmissions were between 0900 and 1200 UTC. I will keep trying for future transmissions.
United States (USA)	Foxboro	Richard Brunner	AA1P	Radio receiver and own antenna	E-Field probe antenna, SAQrx on computer, AR-8510 receiver	Unheard	Nothing heard in Massachusetts USA, kein uberraschung, as it's mid-day here.
United States (USA)	Stonington CT	Bowne, Chris	AJ1G	Radio receiver and own antenna	Wandell und Goltermann AT-611 Selective Level Meter, 75 Meter Amateur Mobile Whip Antenna on a 2017 Volvo XC60 SUV. The AT-611 was powered by a 100 Watt 12V DC to 120V AC power inverter and stand alone 12 volt battery to preclude vehicle electrical noise interference. Inverter was very quiet at VLF frequencies.	Copied entire transmission from initial tuneup through message with a nominal 3 dB SNR above -120 dBm ambient noise floor. Loud static crashes precluded what would have otherwise been perfect readability.	Receiving site was at the Barn Island Connecticut State Wildlife Management Area Boat Launch on the north shore of Little Narragansett Bay. A very quiet reception area with very low background noise levels directly on salt water.
United States (USA)	Tucson	Henry R Knoepfle	KB7NIE	SDR- or Kiwi-SDR and own antenna.	1 m mag loop antenna connected to a Blitzortung system Blue, channel A monitoring point into a NooElec Ham It Up upconverter, then an N3 SDR using Gqrx software on Ubuntu Linux.	Unheard	
United States (USA)	wasilla	Howell, Laurence	KL7L	Radio receiver and own antenna	400m underwater Lake Beverage bearing 030degT - Spectrmlabs, 100Hz filter.	439	Not too strong but Beverage helped to cut QRN from the West. Other over the Pole signals not too strong during your daytime period. Could hardly see GBZ /ICV etc Antenna video https://www.youtube.com/watch?v=vUvfu0CcrU thanks for the transmission and 73 from Alaska BP51IP
